## DETAILED ACTION

### EXAMINER'S AMENDMENT

This application is in condition for allowance except for the presence of claims 14-25 directed to an invention non-elected without traverse. Accordingly, claims 14-15 have been cancelled.

### ***Allowable Subject Matter***

Claims 1-2 and 4-13 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record does not teach or suggest either alone or in combination an apparatus for forming conductive bumps on a plurality of semiconductor devices with an oxidizable material as recited by claim 1, particularly a bump forming device located at a bumping site at which the semiconductor devices are positioned during bumping, the bumping site being situated so that the semiconductor devices are entirely outside the chamber system and adjacent to the access opening during bumping; and the support table is receivable into the chamber system through the access opening, and is operative to move the semiconductor devices from the bumping site into the chamber system after bump formation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
